

MACA Organica capsules for 13,90 € per 100 capsules

MACA the Natural POWER FOOD

Our Veggie Style Organic Maca Powder and capsules stand for: Vitality, Energy, Clarity, Libido, Power and Strength

Maca regulates the Hormone Balance

Our Natural and Organic Maca Root Powder is grown in the high mountains of Peru and offer many powerful benefits on our body. MACA is one of the most powerful plants on earth. The high nutrient content in our Maca with more than 60 different phytonutrients are like a fuel injection for our brain and muscles and they regulate and optimizes our hormone balance which at the same time enhancing our libido and energy. Maca has a high concentration of many vital vitamins, minerals, plant sterols, essential amino acids and omegas. Maca has high contents of: calcium, magnesium, phosphorus, iron, zinc, vitamin B1, B2, B12, C, E, riboflavin, thiamine and ascorbic acid. Besides it is considered as an adaptogen which is the capability of helping the body to combat and reduce stress symptoms being physically and mentally stronger and more resistant. You can feel the benefits of MACA:

?

- Increases energy stamina and feeling of well being

- Boost of Libido and sex drive
- Enhances fertility
- Helps women to relieve symptoms of PMS and menopause.

Unlike medical herbs, Maca does not have negative effects when used properly and it has no contraindications or toxicity. Some people can feel some detoxification symptoms when they start to use Maca, which on the other side is good, as it is a sign, that the Maca helps to flush out toxins like heavy metals out from your body.

SUPER FOODS

We all know the potential mother nature gives us, and also that there are plants which have some extraordinary high content on specific nutrients causing many health- and well- being benefits. Some of our Super foods are known for having a few specific beneficial effects, such as Maca, which gives you energy and boosts your libido. On the other hand, you have also super foods which are considered also whole foods, because they are extremely rich in high nutrient and phytochemical content. They offer a big variety of different nutrient and high content on different vitamins, minerals, amino acids and fatty acids, and all this in a natural not chemically manipulated form – basically all our super foods pass just through one simple low-temperature drying process and without the moisture, all healthy nutrients stay intact giving the possibility of a long shelf live conserving all health and well being benefits offered from this power plant foods.

Our Veggie Style Maca is 100% pure and organic and we use only 100% plant based veggie capsules

Get each 100 Capsules of our organic MACA for the price of 13,90 €. Order them here and feel the energy of Maca!
